

CHILD CARE AT BARKER CHILD DEVELOPMENT CENTER

Children feel valued & appreciated while increasing their self-confidence with trained & educated teachers. We encourage healthy eating habits by learning portion sizes & balanced meals, served family style. Social skills, manners, & language are developed through conversation at the table. We provide formula, cereal, & infant food to children under 12 months of age. Children ages 3+ will take trips to the YMCA for programming & fun. 15 minutes of physical activity each hour is integrated into the curriculum. Certified staff will work to develop your child's motor, cognitive, language, & social skills.
